Minimum space required is 7m x 3m, or (23ft x 9ft).

A 240volt power source, stock table and a couple of chairs.

4-6 operators .

B&B, en-suite 1x twin room per pair of operators.

Number of nights depends on distance from home and time of year. Minimum 2 nights.

Own transport, so no van hire required.

Travel expenses by arrangement as 2 cars usually required.

A rural main line Railroad, but built to narrow gauge standards. Set in the foothills of New Mexico.

The line travels from a transfer with the main line carrier at Santa Fe (storage/fiddle yard) to the city of Los Mochos and beyond into the hills (hidden train turntable).

As well as passenger through trains goods is switched in the yard along with the collection of coal from a local open pit.

The layout is DCC controlled with some but not all locomotives fitted with sound.

Built to a height that is easy viewing,
for children and wheelchair users. .
